# Marm Assistance Environmental Policy

**marm**  
assistance

**Preparing Department:**  
Quality Department

**Record No :**

—  
MS-ÇP-01

**Release  
Date:**

—  
3.05.2021

**As Marm Assistance** , our main goal is to protect the physical environment of this beautiful world where we live, to keep the environmental effects under control, to ensure the continuity by reducing these effects and to realize environmental awareness in all our activities and to leave clean, breathable environment to the next generation by complying with all environmental laws and regulations.

For this reason, while proceeding with our activities, we take care to protect and develop our environment based on our corporate culture with the contribution and support of our top management. We are aware that resources are limited so we look for ways to use them in the most efficient way. We perceive pollution as the worst legacy we will leave to next generations, and we are looking for ways to reduce it.

During the reduction of negative environmental impacts related to our activities;

- To comply with applicable legal and company's own requirements which is related to environmental aspects,
- To include the consideration of environmental issues in all business strategies and initiatives,
- To improve our environmental management system in order to continuously improve our environmental performance,
- To use appropriate technologies that cause the least damage to the environment within the framework of technical and economic possibilities,
- To prevent pollution, reduce waste and minimize the consumption of resources
- To consider the wider global impact of all our activities including those of our suppliers, customers and other internal & external stakeholders,
- To educate and motivate employees to carry out tasks in an environmentally responsible manner and ensure that a continues professional development strategy remains core to our business goals,
- To promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner,
- To create health, safety and environmental integrity by reducing the emergency risks that may occur within the framework of occupational health and safety rules,

These are our important principles while implementing Environmental Policy.

## **General Manager**
